**Senator José Menéndez Issues Statement on Governor Abbott's Vaccine
Announcement**

San Antonio, Texas - State Senator José Menéndez issued the following statement on Governor Abbott's latest announcement banning private company vaccine mandates.

Senator José Menéndez released the following statement:

"It is reckless for Governor Abbott to interfere with the liberty of business owners and school leaders to run their organizations in the way they feel is the safest and in the best interest of their associates and the people they serve. As someone who had a tough fight with COVID-19, I don't want anyone else to suffer or die because of people not being vaccinated. Too many have already suffered and died needlessly. The way to get through this pandemic is through evidence-based methods, such as vaccinations."
